

THE CLUBHOUSE / NORDIC CENTER

The Clubhouse at Jay Peak's golf course is one of the resort's newest facilities and is an ideal venue for functions. Opened in June of 2010, the Clubhouse offers stunning views of the surrounding Green Mountains as well as the valley that separates us from our Canadian neighbors. Complete with its own restaurant and pub, it also features a deck with sweeping views and fire pits to provide a touch of warmth when the evening breezes come down the mountains. On the second floor of the timber-framed building, three luxury suites with their own function space provide guests with a private space for small gatherings.
